PREPARATION 1.
GET INFORMATIONS.

The most important thing to infiltrate a nation or an organization is to know how they work. Which intern organization is connecting to each other. You need to reflect the full concept of an organization and the security. Secondy you neet to make sure you are looking and observating for all free media. Specially for webcams, pictures and television stories.

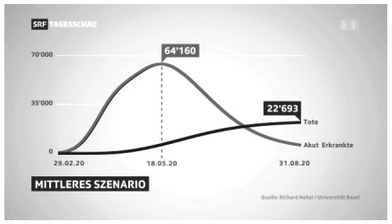
Coronavirus: Schweizer Armee hadert mit «Social Distancing»

Der Bundesrat appelliert, die Aufforderung zum «Social Distancing» ernst zu nehmen und umzusetzen. Doch für die Schweizer Armee ist das nicht ganz einfach.

Startseite > International

Neue Zürcher Zeitung



Weltweit über 60.000 Tote, mehr als 1200 Tote binnen 24 Stunden in den USA – die neusten Entwicklungen zum Coronavirus weltweit

Mehr als 60 100 Personen sind bisher nach einer Coronavirus-Infizierung gestorben, über 1 134 400 sind positiv auf das Virus getestet worden. Fast alle Länder der Welt sind betroffen.

PREPARATION 4.
STAY UPDATED.

Pietro Vernazza (63), Chefarzt Infektiologie in St. Gallen, rechnet mit Corona-Fällen in der Schweiz

«Es gibt keinen Grund, dass wir verschont bleiben»

Herr Vernazza, in der Schweiz gibt es noch keine einzige nachgewiesene Erkrankung am neuen Coronavirus. Wann ist es so weit?

Pietro Vernazza: Mich würde es nicht überraschen, wenn bereits am Montag oder nächste Woche Fälle kommuniziert würden. Es gibt keinen Grund, dass wir verschont bleiben. Es gibt viele Infektionen, die man kaum erkennt. Und auch die milden Erkrankungen sind ansteckend.

Ist es nicht möglich, die Krankheit bereits an der Grenze zu erkennen?

Nein. Bis jetzt wurden nur Tests bei Menschen gemacht, die eine Beziehung zu China haben. Was aber, wenn sich jemand in Italien oder im Iran angesteckt hat? Wir müssen in die Schweiz weiterhin in die Schweiz «Für die Einreise in die Schweiz gibt es aufgrund der aktuellen Lagebeurteilung keine Einschränkungen», sagt ein Sprecher des Bundesamtes für Ge-

Kann man überhaupt etwas gegen eine Infektion tun?

Die Leute in der Schweiz müssen heute und jetzt damit beginnen, besser auf Hygiene zu achten. Das Bundesamt für Gesundheit publiziert jährlich wirksame Hygieneverschriften, mit welchen wir Übertragungen von Infektionen eindämmen können. Wenn wir die Ansteckungsgefahr halbieren, hätten wir schon viel Zeit gewonnen.

Was würde das bringen?

In China testen Wissenschaftler bereits die ersten vielversprechenden Medikamente an Menschen.

Jahre sind dann immer wieder Menschen gestorben. In der Schweiz impfen sich wenige gegen die Grippe. Wird das jetzt anders?

Ich vermute schon. Bei der Grippe lassen sich in gewissen Regionen weniger als zehn Prozent des Pflegepersonals impfen. Ich bin überzeugt: Hätten wir eine Impfung gegen das neue Coronavirus, die Mehrheit würde sich impfen lassen.

Wie schlimm ist eine Erkrankung am Coronavirus?

Eine aktuelle Studie aus China zeigt: Über 80 Prozent der Erkrankten haben milde Symptome. Aber wenn, sagen wir, 20 oder 30 Prozent der Bevölkerung angedenn Medikamente an Menschen.

Pietro Vernazza: «Wir müssen die Hygiene in der Schweiz verbessern.»

Corona zwischen Come (l.) und Chiasso TI: Kontrollen sollen nicht an den Grenzen stattfinden, sondern weiter im Schweizer Inneren.

Jungen Grünen fordern ein Verbot für Autos mit einem Ausstoss von mehr als 95 Gramm CO2 pro Kilometer ab dem Jahr 2021. Gescheitert dies nicht, lanciert die Partei laut Sonntagsblick ihre Offroaden-Initiative neu. Diese wurde 2011 zurückgezogen.

Wermuth/Meyer bei den Jungen auf Kurs

Bern – Keine Überraschung bei den Jungsozialisten: Sie unterstützen für die Nachfolge des abtretenden SP-Präsidenten Christian Levrat das Co-Präsidium Mattea Meyer und Cédric Wermuth. Das haben die Delegierten mit 126 von 164 Stimmen entschieden.

PREPARATION 5.
KNOW THE RULES.

Stay at home. Only leave the home if absolutely necessary. That means:

If you have to purchase groceries.
If you have to go to the doctor's or the pharmacy.
If you have to help someone.
If you are unable to work from home and you have to go to work.

forbidden to meet more than
5 peoples

always social distancing 2m

closed:
Shops and markets, Restaurants, Campsites, Bars, discos, nightclubs and strip clubs, Leisure and entertainment establishments; concert halls, theatres, casinos, sports centres, fitness centres,tattoo studios and cosmetic studios

FROM OBSERVED TO OBSERVER.

The sociality has changes with the corona virus. There are many new rules from the nation to protect the citizens. It is a task of solidarity to stay at home and do some thing good, specially for our risk patients. The Government want to flat the curve and so to preserve the hospitals from a collapse.

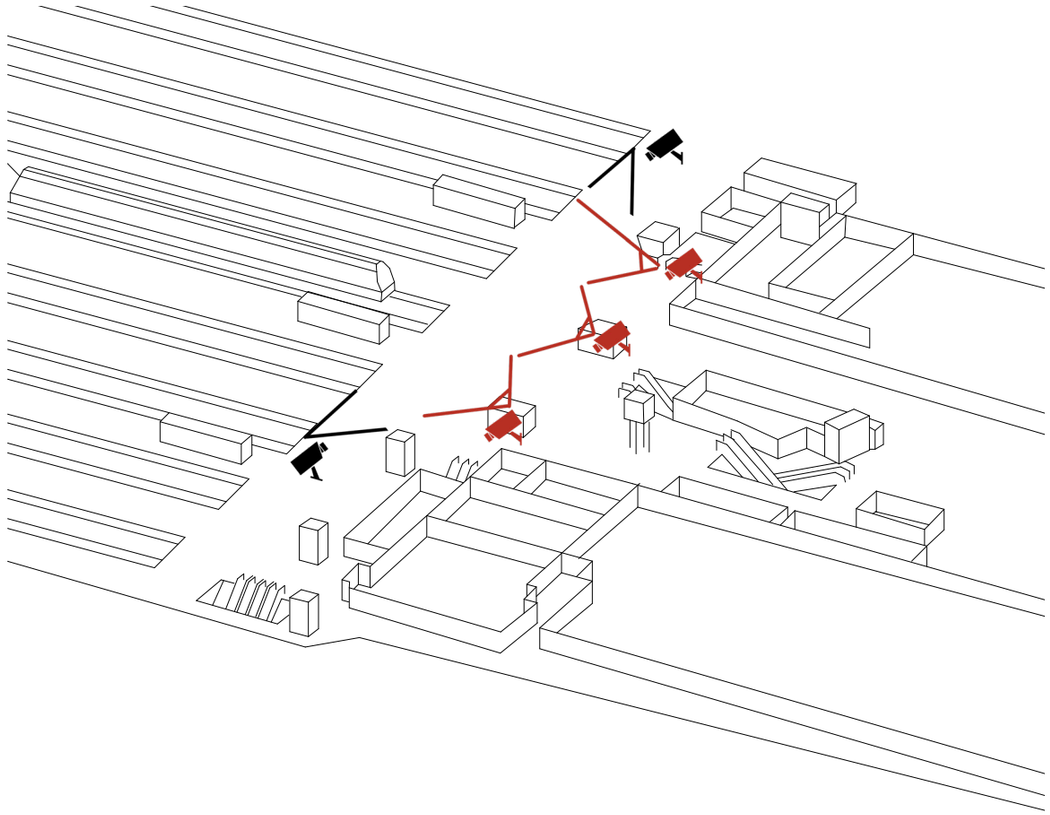
All this rules are dramatic for our sociality. We are controlled and

observed everywhere with new

CCTV, webcams, police patrols and civil peoples. Because of too many people a lot of public spaces are closed and at the Hauptbahnhof Zurich, die hotspot of people are 80% less peoples than else. The most time we are controlled by

CCTV, but is this a real illustration of our self and is it enough to control our behavior of BAG.

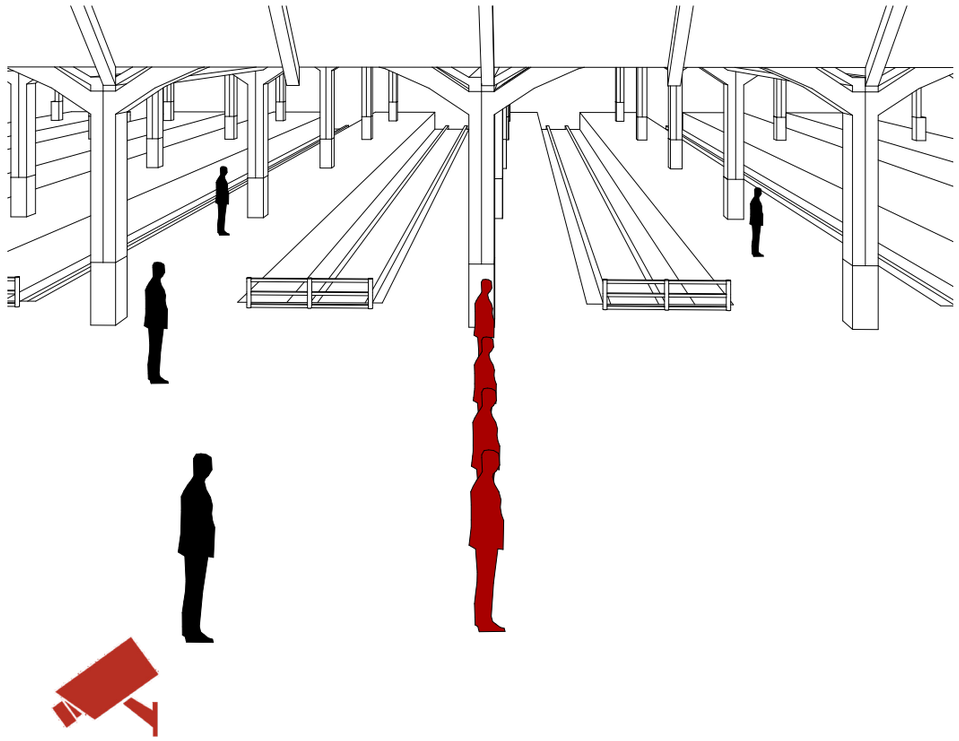
In this script it will show you, how you could fool the police **CCTV** by easy tasks and performance. At the **CCTV** screen they will see that you will do illegal things, which are not allowed at corona times (don’t be more than 5persons and always have 2 meters distance)

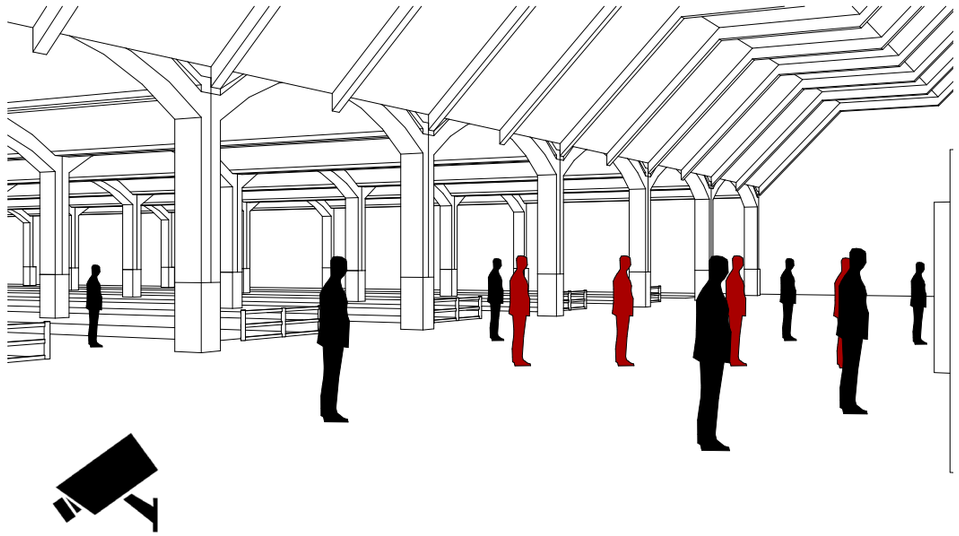


DIFFERENT PERSPECTIVES. DIFFERENT TRUTHS.

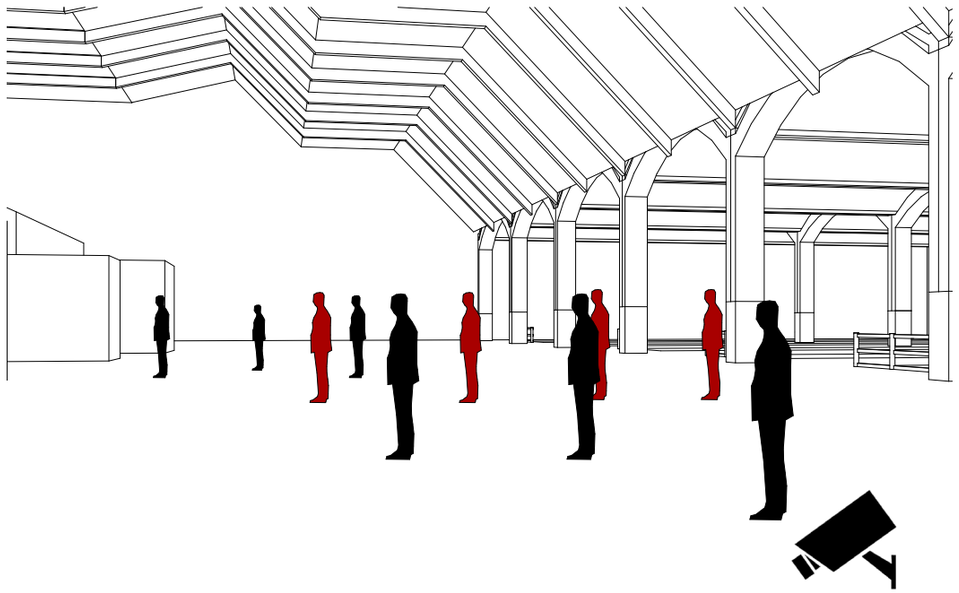
The perspectives and axis are very important in the performance. You need to think, where are the CCTV cams and what do the see from this perspective. The red cams are controlled by the police and private security service. The black ones are private and not for security reasons. Only in these black cams you will see, that the performance will follow all the instructions of the BAG. In the red cams you can’s see it.

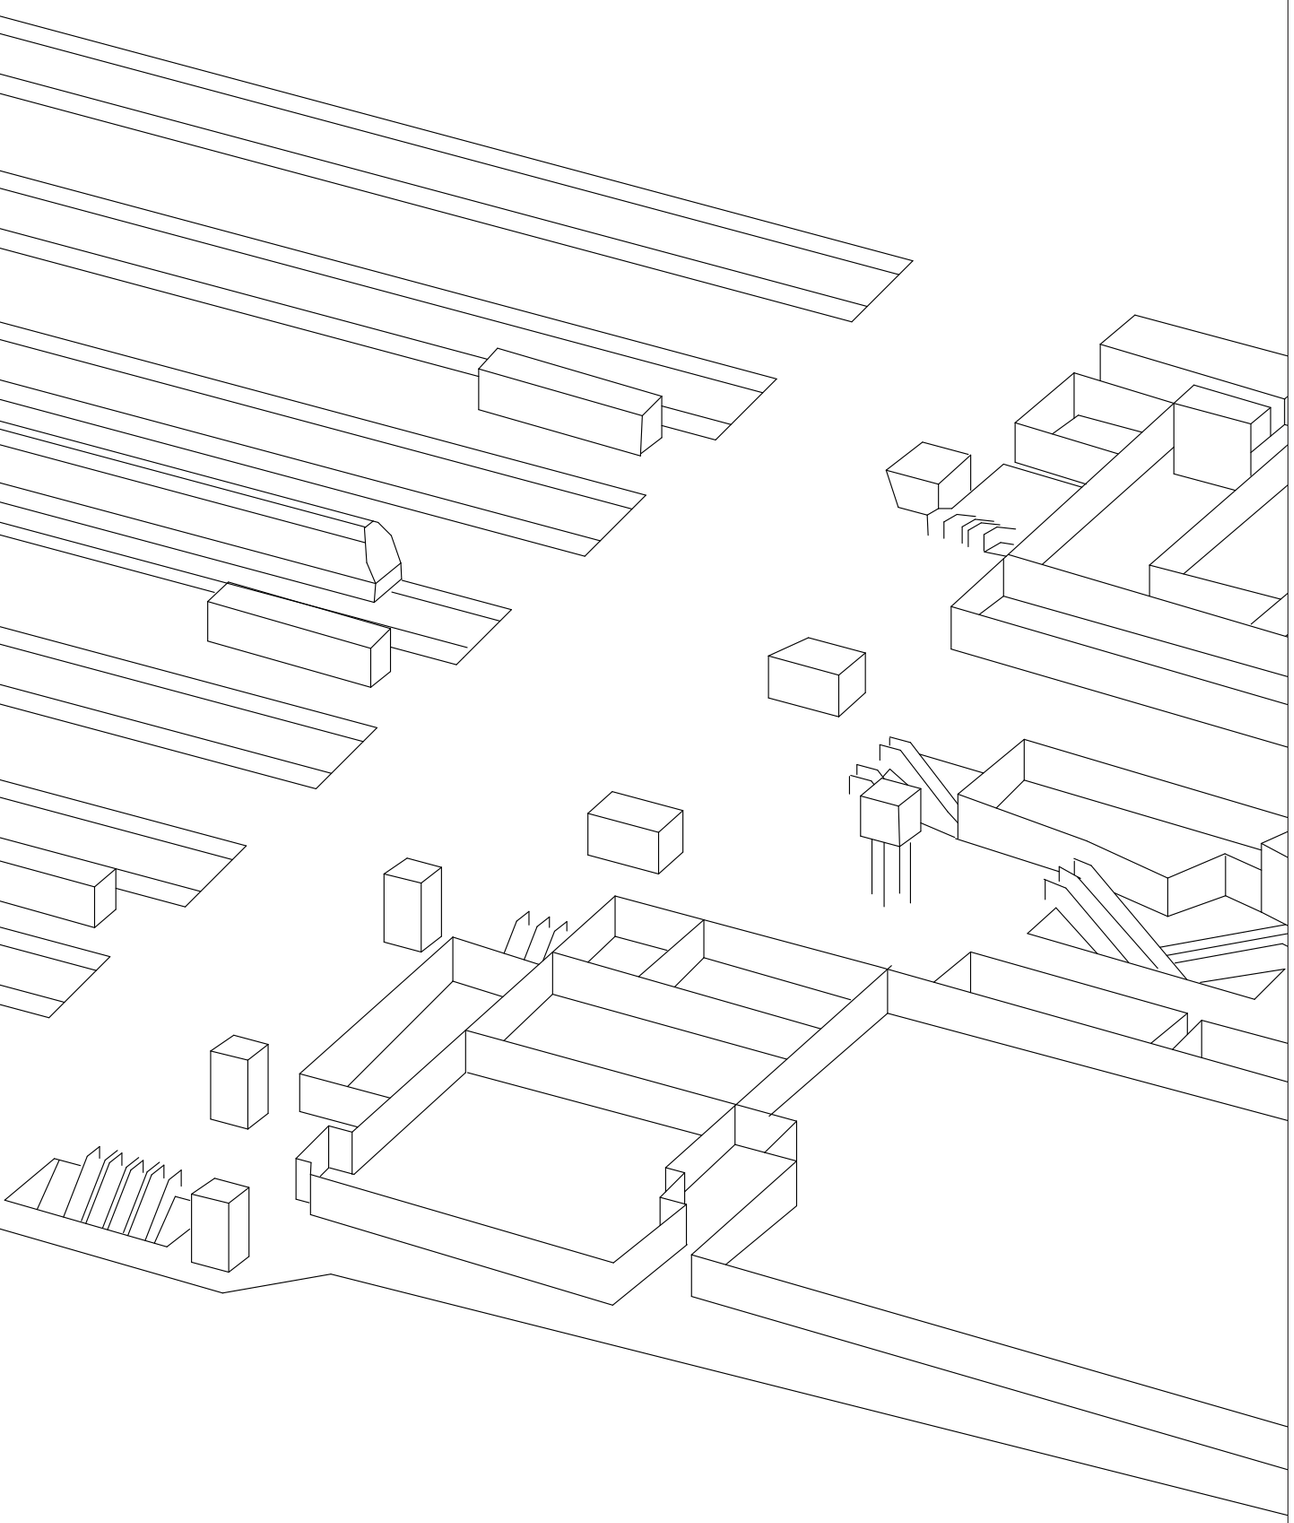
S-Bahn





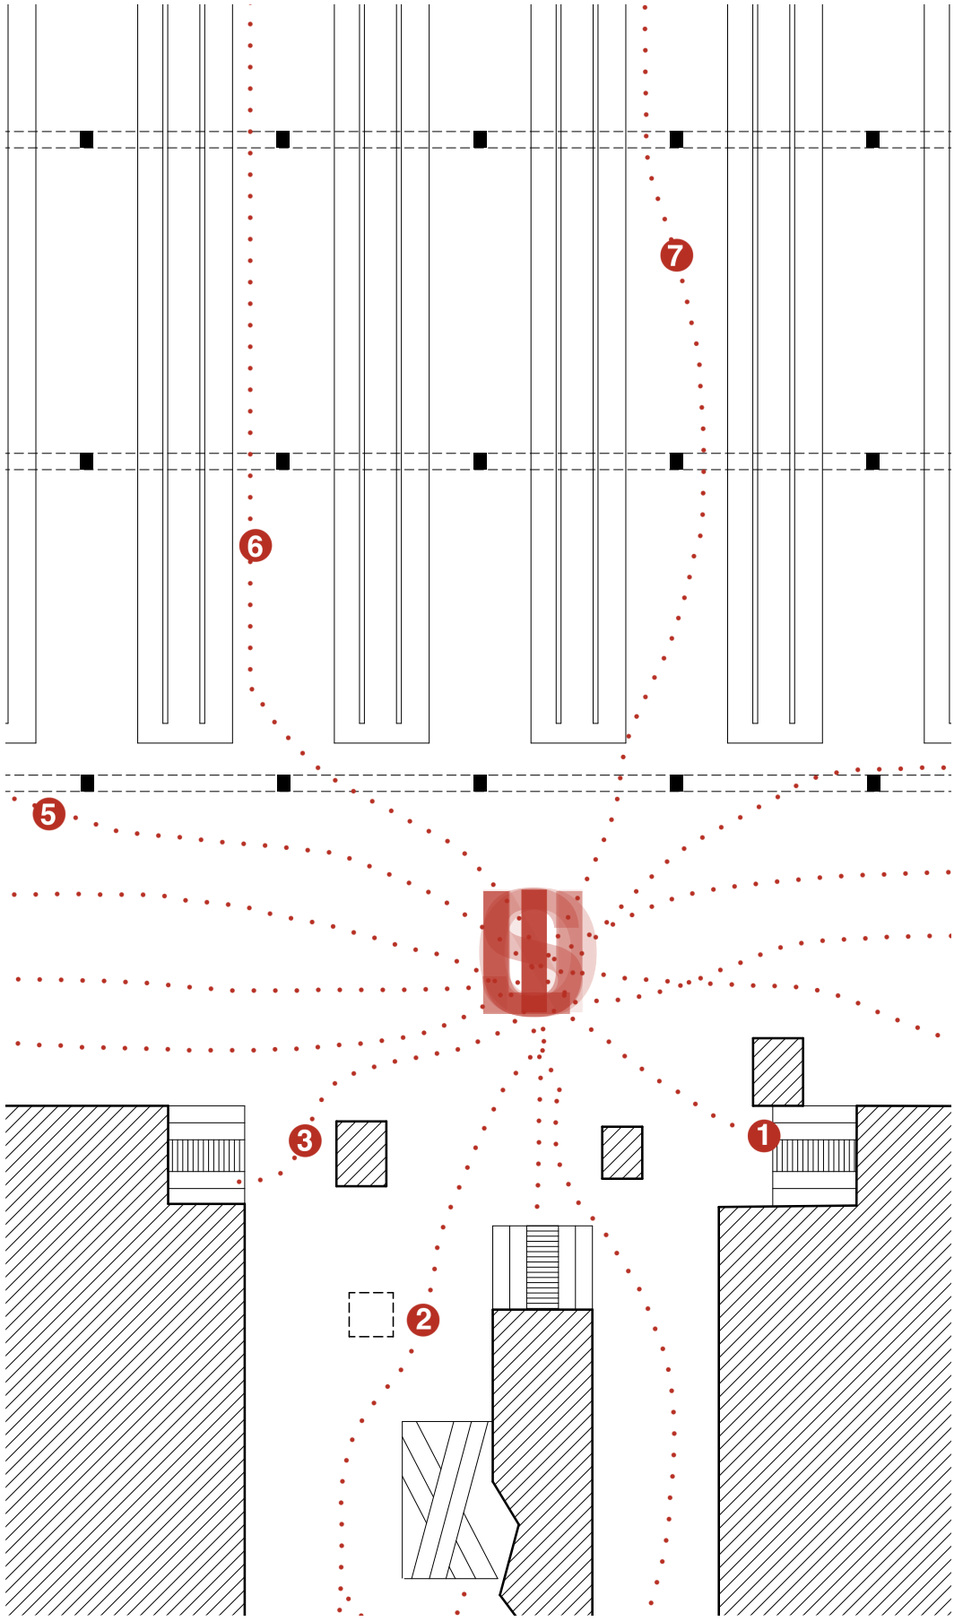
NO GROUPS OVER 5.
SOCIAL DISTANCING.





ORDER IN CHAOS.

In the concept we try to show the CCTV cameras and the security guy behind not the truth about our performance. The goal is, that on the screen there are too many people, a organized group and they don’t follow the instructions of the BAF and police.



SCIPTED CHOREOGRAPHY.

For every artist you need to creat a choreography. In this choreography you should define every important step. Like a floorplan with coordinates, timetable and gesture.

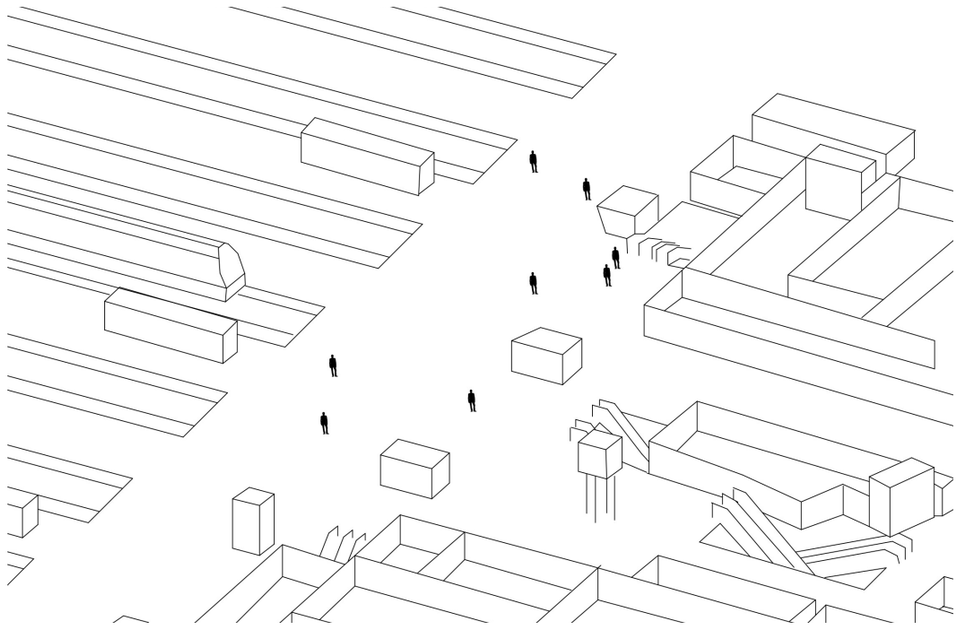
SCRIPT: ARTIST 1

t+10. startpoint at 1, move like every other radom person, do not stay at one point. t-00. move to point 2. be there at t-05. stay at point 2 for 5sec (t-10). move to the next point.

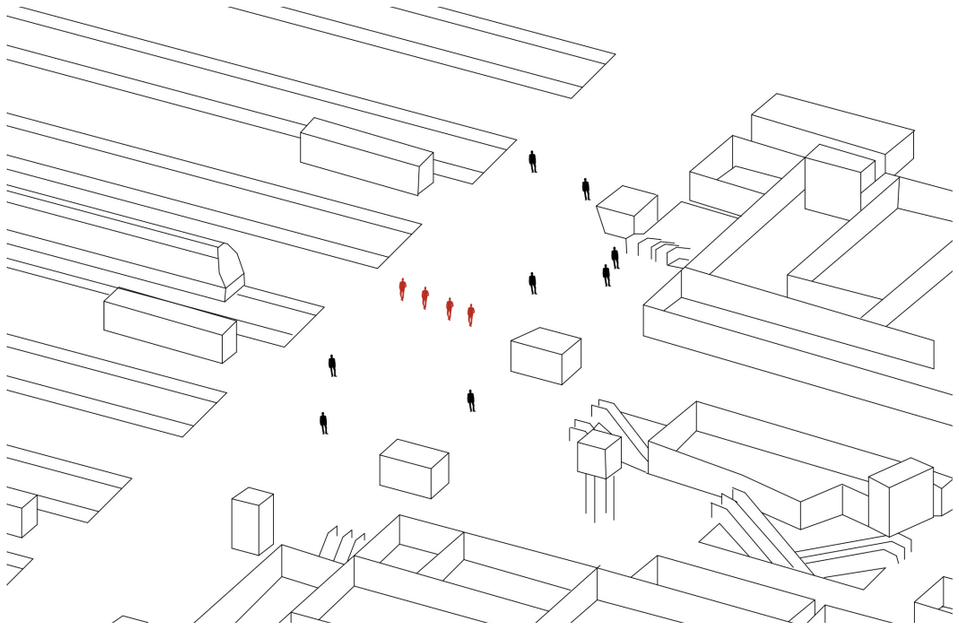
for movement you will have 5sec, and stay 5sec at the point, not more.

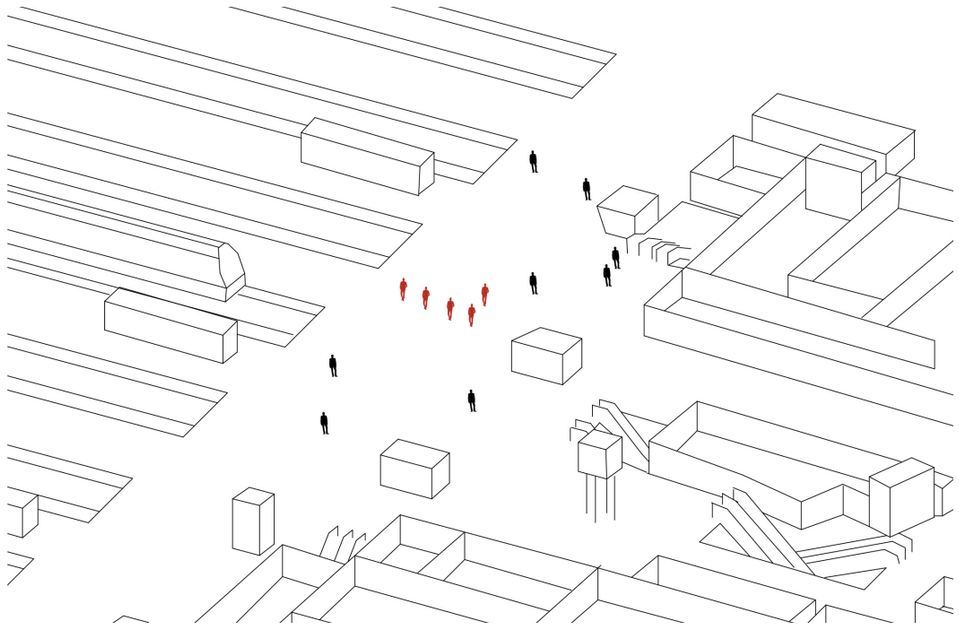
after you finisch the last point, walk away alone.

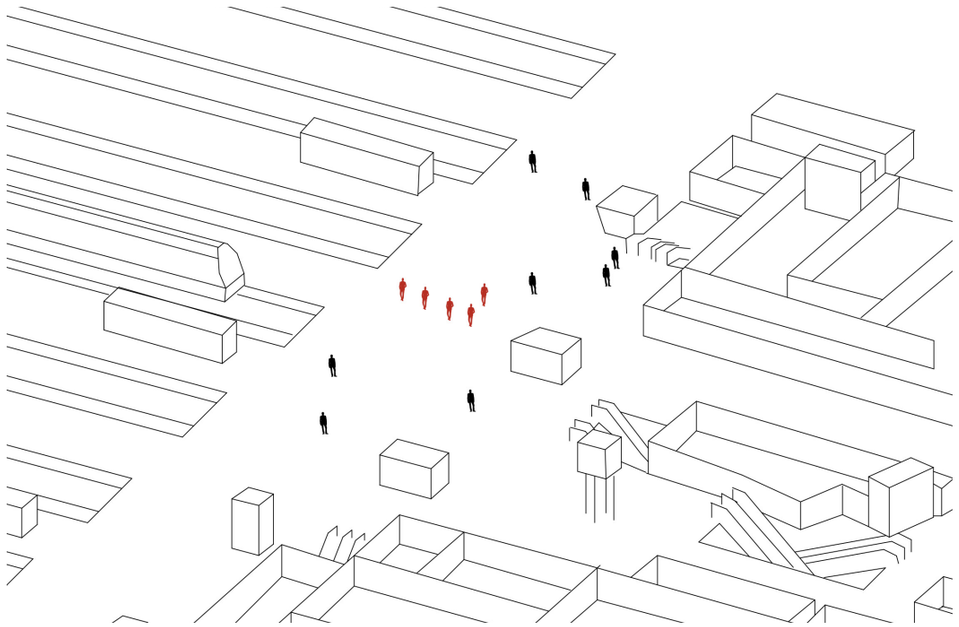
make sure, you know the point locations by heart. and make sure you are always on time.

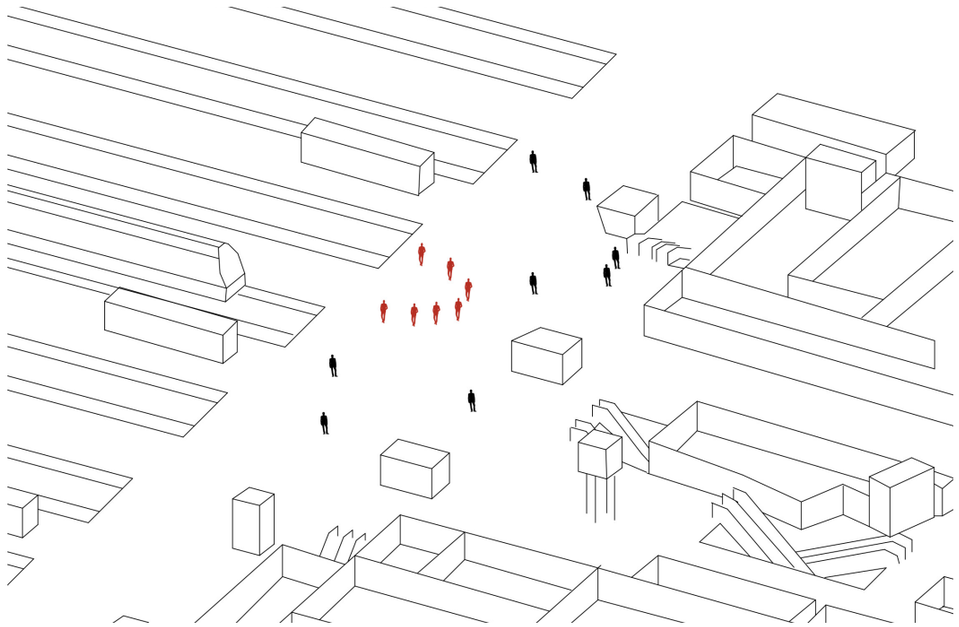


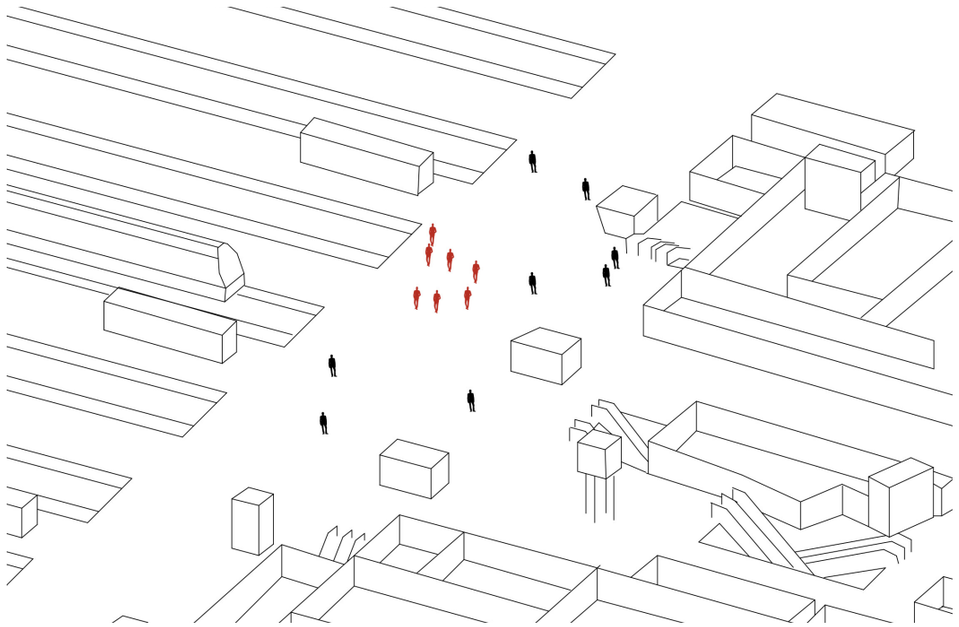
ALL TOGETHER.
PERFORMANCE.

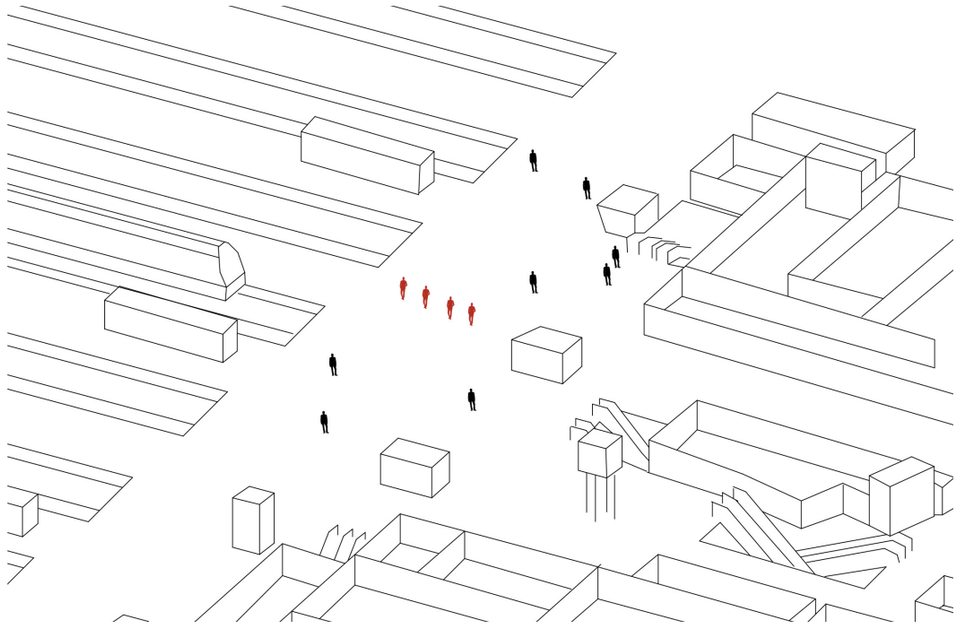


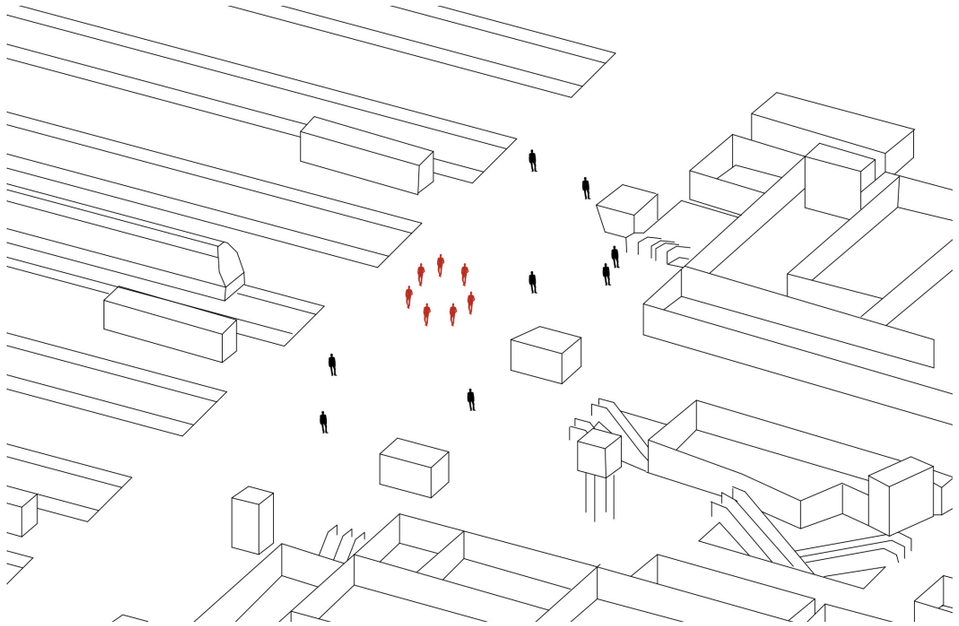


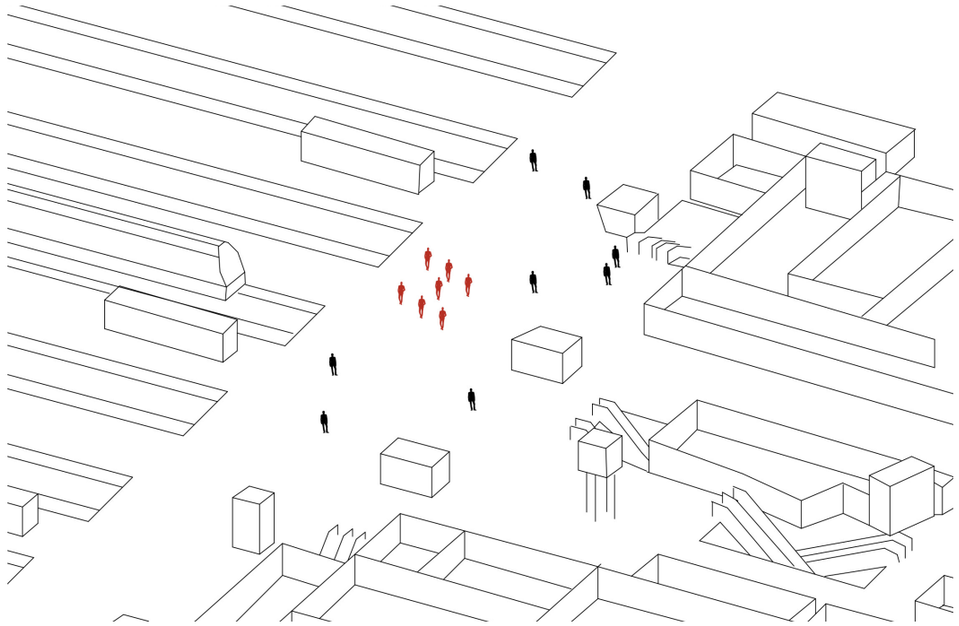












SAVE ALL YOUR DATA.
SHARE IT TO THE INTERNET.
DISAPPEAR.

GOOD LUCK.

Can we always be sure what we see with our eyes? Or not? Is the CCTV observation good for our security or our sociality? Do we need more webcams or security cameras in our public space or not?
We tried to critical show you if it is / or not a good idea for security by CCTV. They don't show the truth at all. Maybe they just show you something you want to see?

It is all about **ILLUSION, PERSPECTIVES, AXIS** and **FAKENESS**.
